|                                                                    |           |
|--------------------------------------------------------------------|-----------|
| List of Tables . . . . .                                           | XI        |
| List of Figures . . . . .                                          | XV        |
| List of Equations . . . . .                                        | XIX       |
| List of Listings . . . . .                                         | XXI       |
| List of Abbreviations . . . . .                                    | XXIII     |
| List of Publications . . . . .                                     | XXVII     |
| <br>                                                               |           |
| <b>1 Introduction to Reconfigurable Industrial Mobile Robots</b>   | <b>1</b>  |
| 1.1 Motivation . . . . .                                           | 1         |
| 1.2 Vision . . . . .                                               | 6         |
| 1.3 Research Structure . . . . .                                   | 7         |
| 1.3.1 Contribution and Hypothesis . . . . .                        | 7         |
| 1.3.2 Research Objectives . . . . .                                | 9         |
| 1.3.3 Research Assumptions . . . . .                               | 10        |
| 1.4 Scientific Fields of Influence . . . . .                       | 11        |
| 1.5 Thesis Overview and Organisation . . . . .                     | 11        |
| <br>                                                               |           |
| <b>2 Literature Review</b>                                         | <b>15</b> |
| 2.1 Mobile Robot Systems . . . . .                                 | 15        |
| 2.1.1 Classical Mobile Robot Architectures . . . . .               | 17        |
| 2.1.2 Reconfigurability in Mobile Robots . . . . .                 | 19        |
| 2.1.3 Reconfiguration and Verification of Hybrid Systems . . . . . | 22        |
| 2.1.4 Discussion . . . . .                                         | 25        |
| 2.2 Manufacturing Systems . . . . .                                | 27        |
| 2.2.1 Manufacturing Paradigms . . . . .                            | 29        |
| 2.2.2 Self-Organisation in Manufacturing Systems . . . . .         | 45        |
| 2.2.3 Knowledge Engineering in Manufacturing Systems . . . . .     | 55        |
